

EXCLUSIVE

CHASSIS REAR IMPACT GUARD UPFIT KIT

Retrofit your Stoughton Chassis to the new standard of safety, meeting IIHS TOUGHguard standard for 30 degree offset impact.

Stoughton Trailers 53' intermodal container chassis are the first and only in the industry to achieve the IIHS TOUGHGUARD certification. This reflects extensive engineering and testing to ensure superior safety and durability on the road.

We offer a chassis rear impact guard upfit kit so you can modify your existing Stoughton 53' 2021 or newer chassis to be safer.
