Stoughton Parts Sales Breaks Ground on 15,000-Square-Foot Warehouse Expansion

STOUGHTON, Wis. (Monday, October 10, 2016) — Stoughton Parts Sales, a division of Stoughton Trailers, LLC, broke ground today on a nearly 15,000-square-foot warehouse expansion of its facility, located at 1112 Veterans Road, Stoughton.

Stoughton Parts Sales is a full-line parts distribution center, providing trailers parts and accessories, along with safety products and shop supplies to the aftermarket trailer repair industry.

The warehouse expansion will nearly double the existing space and will be completed by February. The additional space will allow the company to stock even more products to meet customer needs and solidify the business's commitment to industry leading service and support.

"This additional warehouse space will support a key element of our growth strategy: expanding our portfolio of parts and accessories," said Stoughton Parts Sales General Manager Stephen Terrill. "The expanded portfolio will position Stoughton Parts Sales to be a leading solutions provider of semi-trailer parts and accessories across North America."

The company marked the occasion with a celebration lunch on Friday for all Stoughton Parts team members and Stoughton Trailers leadership personnel at the Stoughton Parts Sales building.
