Stoughton® Trailers Wins HDT's 2016 Top 20 Product Award

STOUGHTON, Wis. (February 17, 2017) — Stoughton® Trailers, a global leader in transportation equipment, is pleased to announce that it has won HDT's 2016 Top 20 product award for its new Rear Underride Guard.

HDT's Top 20 are this year's "Best of the Best" new products for 2016, selected from hundreds of products and services introduced in the pages of HDT and/or on Truckinginfo.com. The winners are selected by a panel of five veteran fleet maintenance professionals, all members of the ATA's Technology & Maintenance Council (TMC).

HDT's 2016 Top 20 product selections are judged on innovation, the ability to address top industry issues and the potential to improve a fleet's bottom line through maintenance savings or improvements in safety and fleet efficiency.

The new underride guard is designed to provide greater protection to the driving public in the event of an accident at the rear of the trailer. It comes as standard equipment on all Stoughton dry vans at no additional cost or weight.

Stoughton will be honored in the February 2017 issue of HDT magazine. The awards presentation identifying Stoughton as a 2016 winner will take place at the TMC Annual Meeting in Nashville on February 27, 2017.

About Stoughton Trailers

Stoughton Trailers is a top 10 international supplier of semi-truck trailers. The Wisconsin-based, family-owned company designs, manufactures and markets a wide range of dependable semi-truck trailers used for over-the-road trucking, as well as agricultural trailers and other specialty transportation equipment. It provides one-stop build, finance, rental and fleet management solutions through world-class responsiveness and design value. For more information, visit StoughtonTrailers.com.
