PLATINUM™
SERIES

GRAIN TRAILER

Designed with years of experience in quality and craftsmanship, the newly designed Stoughton Platinum Series™ grain trailer is built using proven components, thorough testing and the same durability and value you have come to expect from Stoughton.

Stoughton grain trailers are available in 34-foot, 40-foot and 42-foot lengths with a wide array of features and options in 8 models to fit your unique needs. Stoughton trailers built to last, reducing your overall cost of ownership.

Composite Front Wall & Stainless Steel Front Corners

BUILT
TO
LAST

Our new front wall is made of composite panels providing greater durability, strength and stability. Stainless steel front corners are standard on the newly designed grain trailer.

FASTER, BETTER CLEANOUT

All Platinum Series grain trailers come standard with a 34° hopper slope for faster and better cleanouts.

PLATINUM PLUS™ 2-STAGE HOPPER DOOR

Constructed of corrosion resistant materials, the "easy-opening" 2-stage door significantly decreases the amount of torque needed by the operator to begin emptying the load.

REMOVABLE INNER LINER

The liner is now removable, enabling easy removal of the liner panels to service the trailer components behind the liner panels.

STRONGER TOP DIVIDER RAIL

The gauge of the divider rail is 25% thicker to provide additional strength.

NEW HAND RAIL DESIGN

On the front and rear, the new Platinum Series design allows the rail to move further up and away from the trailer, making it easier to climb onto the platform and improve safety.

HOT DIPPED GALVANIZED STEEL SUPPORTS

Standard on all Platinum Series aluminum subframe grain trailers are hot dipped galvanized steel supports which connect the subframe to the cross members. In combination with the aluminum subframe, this offers a more durable and corrosion resistant solution.

OPTIONAL FEATURES

- Stainless Steel Rear Panels
- Electric Traps
- Electric Tarps

IT'S IN THE DETAILS

FRONT UPPER RAIL & TOP SHELF

The front upper rail and top shelf have been redesigned to improve strength.

UPPER REAR LIGHTS

The lights on the upper rear header of the trailer now function as brake lights and turn signals, improving visibility and safety.

PLATINUM PLUS WORK AREA LIGHTS

The patented work area lights are standard, offering a superior solution when unloading at night. Each hopper and crank is equipped with built-in LED lights to greatly reduce the chance of being damaged.

PLATINUM PLUS 2-ROW MINI LED LIGHTS

All Platinum Series grain trailers come standard with two rows of 7 mini LED lights on 40- and 42-foot trailer models. The lights are grommet mounted, easy to replace and carry a lifetime warranty.

GRAIN TRAILER MODELS

Trailer Size	Trap Size	Ground Clearance	Slope Angle	Cu. Ft.	Bushels	Estimated Weight*
34' x 96" x 68"	20" x 29"	24"	34°	1120	900	8260 lbs.
34' x 96" x 74"	20" x 29"	24"	34°	1230	990	8370 lbs.
40' x 96" x 68"	29" x 31"	24"	34°	1370	1100	8820 lbs.
40' x 96" x 74"	29" x 31"	24"	34°	1495	1200	8900 lbs.
42' x 96" x 68"	29" x 31"	24"	34°	1400	1125	8990 lbs.
42' x 96" x 74"	29" x 31"	24"	34°	1555	1250	9100 lbs.
42' x 102" x 74"	29" x 46"	18"	38°	1800	1450	9450 lbs.
42' x 102" x 80"	29" x 46"	18"	38°	1930	1550	9560 lbs.

*Estimated weight based on aluminum subframe and aluminum wheels. Steel subframe adds approx. 140 lbs. Steel wheels add approx. 190 lbs.

LIVESTOCK TRAILERS

Barrett Trailers, owned by Stoughton Trailers since 2014, is a leading manufacturer of the highest quality, all aluminum livestock trailers. Barrett specializes in gooseneck and ground load trailers as well as semi-trailers for transporting hogs and cattle. Located in Purcell, OK, Barrett is known for its design, craftsmanship and performance, and meeting customer demands for quality, value and safety.
