

Transportation Panels and Trailer Swing Doors

At NUDO, we manufacture durable trailer swing doors and laminated transportation panels for OEMs, fleet operators, and trailer repair shops. NUDO's PlyMetal™ trailer swing door panels are the industry standard for long-term performance.

Each door panel features a structural plywood substrate with a variety of laminated exterior options including aluminum, stainless steel, galvanized steel, or high-density polyethylene (HDPE). Whether you're manufacturing a new trailer door or looking for a trailer door replacement, NUDO offers the strength and protection you need.

NUDO Swing Door Panel Options

NUDO offers laminated trailer swing door panels designed for both OEM production and replacement applications. The PlyMetal™ and PlyMetal™ Plus product lines provide durable, lightweight construction engineered for long service life in high-cycle transportation environments.

PlyMetal™ Swing Door

A durable door panel designed to withstand the elements. They feature a plywood core sandwiched between an exterior aluminum finish and an interior mill aluminum finish.

PlyMetal™ Plus Swing Door

A durable door panel that features a plywood core sandwiched between an exterior aluminum finish and a non-corrosive high-density polyethylene interior that resists cuts, rust and chemicals.

Which Trailer Door Panel is Right for You?

Choosing the right trailer swing door panel depends on your application, durability needs, and whether you're replacing a door or building new equipment. NUDO offers two main options: PlyMetal™ and PlyMetal™ Plus.

	Description	Uses	Substrate
PlyMetal Swing Door	Plywood core sandwiched between an exterior aluminum finish and an interior mill aluminum finish	Trailer Swing Door	Plywood
PlyMetal Plus Swing Door	Plywood core sandwiched between an exterior aluminum finish and an interior high-density polyethylene finish	Trailer Swing Door	Plywood

Common applications include:

- Semi-trailer rear swing doors
- Dry van trailers
- Box truck doors
- Cargo trailer door panels
- Fleet trailer door replacement projects
