# CUTTING YOUR COSTS FUELING YOUR PROFITS

Transtex' family of fuel-saving, aerodynamic solutions now includes *ezEDGE*, a three-panel skirt for 53-foot trailers whose durability and performance equals our single panel solutions.

*ezEDGE* offers carriers and distributors an American-made product that is easier to transport, warehouse and install with a competitive price point.

Constructed from the lightest, strongest composite material, *ezEDGE* delivers industry-leading flex, UV-protection and impact/puncture ratings that ensure our skirts outlast the ownership of your trailers.

*ezEDGE* is 38 percent lighter than similar competitor's skirts. Built with fewer parts to speed installation and reduce maintenance, it features flexible panels and mounting brackets to better withstand the rigors of a harsh roadway environment. Inclined panel joints lessen vibration and all thermoplastic panels and brackets eliminate carrier's concern with competitors' products with rusting.

Order Item # TT-EZ-1932T - EZ EDGE SKIRT SET, 19FT x 32IN

**EPA SMARTWAY**  
VERIFIED - ADVANCED  
**CALIFORNIA ARB APPROVED**

## ezEDGE ADVANTAGE

- ✔ Ships on one pallet
- ✔ Easily stored because of smaller footprint
- ✔ Installation by two people can be done in 40 minutes without special tools
- ✔ Available at distributors

### ezEDGE CONFIGURATION AND ASSEMBLY

Number of Panels: 3      Length: 19'      Height: 32"      Weight: 142 lbs.

## **ezEDGE** ASSURED PERFORMANCE UNDER ALL CONDITIONS

Intensive use and harsh conditions place high demand on trailer skirt performance. **ezEDGE** has been designed to withstand these challenges.

Manufactured from a top rated, light and strong glass-reinforced thermoplastic composite material, **ezEDGE** has flex and impact ratings that ensure the skirt is as tough as your trailer.

## **TRANSTEX: A NAME YOU CAN TRUST**

**ezEDGE** is our response to carrier and distributor requests for a product whose performance, cost and warranty rivals single panel offerings, but whose physical handling and warehousing is easier and less costly.

Transtex skirts have been selected by many of the trucking industry's leading carriers, including Averitt Express, Celadon, Covenant Transport, Saia, TCSI-Transland and Werner Enterprises, because of their unparalleled performance and reliability.
